

Date: 5 December 2022

Dear Tony Nikolic

On behalf of the Australian Medical Professionals Society (AMPS) I would like to extend our genuine appreciation for the significant contribution you made to our NSW Stop Medical Censorship Symposium. The courage of conviction you demonstrate is incredibly inspiring. We all understand the consequences involved in being a voice in this pushback against government overreach.

We have had positive feedback on the information shared. Exposing the lies, and simply outlining the evidence, ensures the Australian public have an opportunity to hear the other side of the story. They deserve transparent and accountable evidence and data to make informed decisions. As we continue to stand and speak out together the weight of truth will mean we will no longer have to sacrifice and fight to defend it, the evidence will defend itself.

Your words and actions have provided hope to many who have felt weary and heartbroken. There are few that possess the strength of character, heart and conscience you display. There are no words that can thank you enough for the hope your actions have and continue to inspire. It is a privilege to stand with you.

We look forward to continuing this journey with you as we work together to seek evidence based best practice, truthful and transparent policy and justice for humanity. Heartfelt thanks for the stand you have been prepared to take in the service of the people.

Warmest Regards,

Kara Thomas

Kara Thomas
Secretary AMPS
